INDEPENDENT AUDITOR'S REPORT

To the Board of Trustees The Audubon Society of New Hampshire Concord, New Hampshire 03301

We have audited the accompanying financial statements of The Audubon Society of New Hampshire, which comprise the statements of financial position as of March 31, 2017 and 2016, and the related statements of activities and changes in net assets, and cash flows for the years then ended, and the related notes to the financial statements.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to express an opinion on these financial statements based on our audits. We conducted our audits in accordance with auditing standards generally accepted in the United States of America. Those standards require that we plan and perform the audits to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

Page 1

Opinion

In our opinion, the financial statements referred to above present fairly, in all material respects, the financial position of The Audubon Society of New Hampshire as of March 31, 2017 and 2016, and the results of its operations and changes in net assets and its cash flows for the years then ended in accordance with accounting principles generally accepted in the United States of America.

Other Matter

Our audits were conducted for the purpose of forming an opinion on the financial statements as a whole. The supplementary statements of functional expenses are presented for purposes of additional analysis and are not a required part of the financial statements. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the financial statements. The information has been subjected to the auditing procedures applied in the audit of the financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the financial statements or to the financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the information is fairly stated in all material respects in relation to the financial statements as a whole.

Nathan Werhsler ; Company Concord, New Hampshire

August 22, 2017

NOTES TO FINANCIAL STATEMENTS

Note 1. Nature of Business

The Audubon Society of New Hampshire ("the Society") is a not-for-profit organization incorporated under the laws of the State of New Hampshire. The Society was established in 1914 as a statewide membership organization dedicated to protecting New Hampshire's wildlife and environment through education and conservation. Contributions and contracts represent the Society's primary source of revenues.

Note 2. Significant Accounting Policies

Basis of accounting: The financial statements of the Society have been prepared on the accrual basis; consequently, revenues and gains are recognized when earned, and expenses and losses are recognized when incurred. The significant accounting policies followed are described below to enhance the usefulness of the financial statements to the reader.

Basis of presentation: The Society accounts for contributions received in accordance with the FASB Accounting Standards Codification topic for revenue recognition (FASB ASC 958-605,) and contributions made in accordance with FASB ASC 958-720-25 and FASB ASC 958-310. In accordance with FASB ASC 958-605-25, contributions received are recorded as unrestricted, temporarily restricted, or permanently restricted support, depending on the existence or nature of any donor restrictions. In addition, FASB ASC 958-310 requires that unconditional promises to give (pledges) be recorded as receivables and recognized as revenues.

The Society adheres to the Presentation of Financial Statements for Not-for-Profit Organizations topic of the FASB Accounting Standards Codification (FASB ASC 958-205). Under FASB ASC 958-205, the Society is required to report information regarding its financial position and activities according to three classes of net assets: unrestricted net assets, temporarily restricted net assets, and permanently restricted net assets. Descriptions of the three net asset categories are as follows:

<u>Unrestricted net assets</u> include revenues and expenses and contributions pledged which are not subject to any time or donor-imposed restrictions.

<u>Temporarily restricted net assets</u> include contributions and gifts for which donor-imposed restrictions will be met either by the passage of time or the actions of the Society, and also includes the accumulated appreciation related to permanently restricted endowment gifts, which is a requirement of FASB ASC 958-205-45.

<u>Permanently restricted net assets</u> include gifts which require, by donor restriction, that the corpus be invested in perpetuity and only the income or a portion thereof be made available for program operations in accordance with donor restrictions.

Use of estimates: The preparation of financial statements in conformity with generally accepted accounting principles requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and the disclosure of contingent assets and liabilities at the date of the financial statements. Estimates also affect the reported amounts of revenues and expenses during the reporting period. Actual results could differ from those estimates.

NOTES TO FINANCIAL STATEMENTS

Cash and cash equivalents: Cash and cash equivalents in the statement of cash flows include cash, which is held in either demand deposit or short-term money market accounts, and highly liquid savings deposits and investments with original maturities of three months or less when purchased.

Accounts receivable: Accounts receivable are stated at the amount management expects to collect from outstanding balances. Management provides for probable uncollectible amounts through a provision for bad debt expense and an adjustment to an allowance based on its assessment of the current status of individual accounts. Balances that are still outstanding after management has used reasonable collection efforts are written off through a charge to the valuation allowance and a credit to accounts receivable. No allowance for doubtful accounts was deemed necessary for both years ended March 31, 2017 and 2016.

Contributions receivable: Unconditional promises to give are included in the financial statements as contributions receivable and revenue of the appropriate net asset category. Contributions receivable expected to be received beyond one year are recognized at fair value using present value techniques. Conditional promises to give are not included in the financial statements. Management provides for probable uncollectible amounts through a provision for bad debt expense and an adjustment to an allowance based on its assessment of the current status of individual accounts. Balances that are still outstanding after management has used reasonable collection efforts are written off through a charge to the valuation allowance and a credit to accounts receivable. Allowance for doubtful accounts of \$- and \$5,078 was recorded for the years ended March 31, 2017 and 2016, respectively. Actual bad debt expense on contributions receivable balances amounted to \$- and \$48,921 for the years ended March 31, 2017 and 2016, respectively.

Property and equipment: Property and equipment are recorded at cost if purchased or fair value at the date of the gift if donated, and are being depreciated using the straight-line method over estimated useful lives as follows:

	Years
Land and improvements	10
Buildings and improvements	
Equipment	3-10
Vehicles	

Investments: Purchased and gifted securities are recorded at fair value. Endowment income is distributed to the Society quarterly and is based upon a three year rolling average of the unit value multiplied by the predetermined rate of 4%. The Society may use the Endowment's investment yield of 4% for support of sanctuaries, specific projects, and general operations. This predetermined income is recorded as temporarily restricted income which is released from restriction when the related expenses are recorded. Accordingly, these amounts are included in net assets released from restriction as part of unrestricted net assets. Earnings in excess of 4% are reinvested in the Endowment, and are included in non-operating income.

Art collection: During the year ended March 31, 2007, the Society capitalized its art collection of John James Audubon's "Viviparous Quadrupeds of North America." During the fiscal year ended March 31, 2014, the artwork was reappraised and is being carried at the estimated market value as of March 31, 2014. Subsequent additions acquired by purchase will be stated at cost; additions acquired by gift will be stated at

(continued on next page)

NOTES TO FINANCIAL STATEMENTS

the estimated fair value at the date of donation. Because the Society's art collection consists of rare works of art, no provision for depreciation is made thereon. The art collection is classified as permanently restricted net assets.

Deferred revenues: Deferred revenues consist primarily of the present value discount on contributions to the pooled income fund, deposits on summer camp programs, and deposits on contract revenue.

Income taxes: The Society is a not-for-profit organization as described in Section 501(c)(3) of the Internal Revenue Code (the "Code") whereby only unrelated business income, as described by Section 512(a)(1) of the Code, is subject to Federal income tax. For the years ended March 31, 2017 and 2016, there was no liability for a tax on unrelated business income.

The Society has adopted the provisions of FASB ASC 740, Accounting for Uncertainty in Income Taxes. Accordingly, management has evaluated the Society's tax positions and concluded the Society has maintained its tax-exempt status, does not have any significant unrelated business income and has taken no uncertain tax positions that require adjustment or disclosure in the financial statements. With few exceptions, the Society is no longer subject to income tax examinations by the U.S. Federal or State tax authorities for tax years before 2014.

Contributions: Contributions received are recorded as unrestricted, temporarily restricted, or permanently restricted support, depending on the existence and/or nature of any donor restrictions.

All donor-restricted support is reported as an increase in temporarily or permanently restricted net assets, depending on the nature of the restriction. When a restriction expires (that is, when a stipulated time restriction ends or a purpose restriction is accomplished), temporarily restricted net assets are reclassified to unrestricted net assets and reported in the statement of activities as net assets released from restrictions.

Contributions of non-cash assets are recognized as in-kind contribution income at their fair value when received and are depreciated over the expected useful life of the asset if capitalized.

Volunteer services: The Society is a membership organization whose volunteers work directly with Society personnel to further the Society's mission. Volunteers serve in teaching positions as trip leaders and assistants, act as environmental advocates, provide field assistance in managing and monitoring wildlife populations, act as sanctuary caretakers, and provide administrative and grounds keeping services. The value of such services has not been recorded in the financial statements.

Functional allocation of expenses: The costs of providing the various programs and other activities have been summarized on a functional basis. These costs include direct and indirect costs that have been allocated, on a consistent basis, among the program and supporting services benefited.

Merchandise inventories: Inventories are stated at the lower of cost, determined on the retail method, or market. Inventories are comprised of birdseed, bird feeders, books, music, and assorted merchandise related to the Society's programs and functions.

Advertising: The Society follows the policy of charging the costs of advertising to expense as incurred.

NOTES TO FINANCIAL STATEMENTS

Note 3. Concentration of Credit Risk

The Society holds cash deposits at several financial institutions. The Society's cash accounts are insured up to \$250,000 per depositor at each financial institution. Amounts included in cash in excess of these federally insured limits were approximately \$12,000 at March 31, 2017.

Note 4. Investments

Investments are recorded at fair value. Fair values are based on quoted market prices, if available, or estimated using quoted market prices for similar securities. Investments in debt and equity securities are subject to changes in fair value due to overall market conditions. Investments consist of the following:

March 31,	2017	2016
Cash and cash equivalents	\$ 12,863 \$	10,699
Corporate stocks	683,699	602,370
U.S. Government securities	146,598	144,587
Bond mutual funds	883 <i>,</i> 793	825,826
Equity mutual funds	1,047,423	1,017,447
Other investments	1,000	1,000
Total investments	\$ 2,775,376 \$	2,601,929

Investment income consists of the following:

March 31,	2017	2016
Interest and dividends, net of investment fees of		
\$21,546 in 2017; \$24,524 in 2016	\$ 106,189 \$	113,562
Realized and unrealized income (losses)	201,667	(275,772)
Total investment income (loss)	\$ 307,856 \$	(162,210)

The Society's investments consist of donor-restricted endowment funds established for a variety of purposes and board designated endowment funds. As required by generally accepted accounting principles, net assets associated with endowment funds, including funds designated by the Board of Trustees to function as endowments, are classified and reported based on the existence or absence of donor-imposed restrictions.

Note 5. Endowment Funds and Net Assets

The Society adheres to the Other Presentation Matters section of the Presentation of Financial Statements for Not-for-Profit Organizations topic of the FASB Accounting Standards Codification (FASB ASC 958-205-45). FASB ASC 958-205-45 provides guidance on the net asset classification of donor-restricted endowment funds for a nonprofit organization that is subject to an enacted version of the Uniform Prudent Management of Institutional Funds Act (UPMIFA). FASB ASC 958-205-45 also requires additional

NOTES TO FINANCIAL STATEMENTS

disclosures about an organization's endowment funds (both donor-restricted endowment funds and board-designated endowment funds) whether or not the organization is subject to UPMIFA.

The State of New Hampshire enacted UPMIFA effective July 1, 2008, the provisions of which apply to endowment funds existing on or established after that date. The Society adopted FASB ASC 958-205-45 for the year ended March 31, 2009. The Society's endowment includes twenty-one donor-restricted endowment funds. As required by generally accepted accounting principles, net assets associated with endowment funds, including any funds designated by the Board of Trustees to function as endowments, are classified and reported based on the existence or absence of donor-imposed restrictions.

The Board of Trustees of the Society have interpreted UPMIFA as allowing the Society to appropriate for expenditure or accumulate so much of an endowment fund as the Society determines to be prudent for the uses, benefits, purposes and duration for which the endowment fund is established, subject to the intent of the donor as expressed in the gift instrument.

As a result of this interpretation, the Society classifies as permanently restricted net assets (a) the original value of gifts donated to the permanent endowment, (b) the original value of subsequent gifts to the permanent endowment, and (c) accumulations to the permanent endowment made in accordance with the direction of the applicable donor gift instrument at the time the accumulation is added to the fund. The remaining portion of the donor-restricted endowment fund that is not classified in permanently restricted net assets is classified as temporarily restricted net assets until those amounts are appropriated for expenditure by the Society in a manner consistent with the standard of prudence prescribed in UPMIFA.

In accordance with UPMIFA, the Society considers the following factors in making a determination to appropriate or accumulate donor-restricted endowment funds: (1) the duration and preservation of the various funds, (2) the purposes of the donor-restricted endowment funds, (3) general economic conditions, (4) the possible effect of inflation and deflation, (5) the expected total return from income and the appreciation of investments, (6) other resources of the Society, and (7) the investment policies of the Society.

From time to time, the fair value of assets associated with individual donor-restricted endowment funds may fall below the level that the donor requires the Society to retain as a fund of perpetual duration. In accordance with generally accepted accounting principles, deficiencies of this nature that are reported in unrestricted net assets were approximately \$7,692 and \$8,540 as of March 31, 2017 and 2016. These deficiencies resulted from unfavorable market fluctuations and by continued appropriation for certain programs that were deemed prudent by the Board of Trustees.

Investment Return Objectives, Risk Parameters and Strategies: The Society has adopted investment policies, approved by the Board of Trustees, for endowment assets that attempt to maintain the purchasing power of those endowment assets over the long-term.

NOTES TO FINANCIAL STATEMENTS

Accordingly, the investment process seeks to achieve an after-cost total real rate of return, including investment income as well as capital appreciation, which exceeds the annual distribution with acceptable levels of risk. Endowment assets are invested in a well-diversified asset mix, which emphasizes equity-based and income-based investments, that are intended to result in a consistent inflation-protected rate of return that has sufficient liquidity to make an annual distribution of accumulated interest and dividends income to be re-invested or used as needed, while growing the funds if possible. Actual returns in any given year may vary from this amount. Investment risk is measured in terms of the total endowment fund; investment assets and allocation between asset classes and strategies are managed to reduce the exposure of the fund to unacceptable levels of risk.

Spending Policy: The Society has a policy of appropriating for distribution 4% of its entire endowment fund's average fair value over the prior twelve quarters through the calendar year-end preceding the fiscal year in which the distribution is planned, unless additional amounts are appropriated by the Board. The Society expects the current spending practice to allow its endowment funds to grow, which is consistent with the Society's objective to maintain the purchasing power of the endowment assets as well as to provide additional real growth through investment return. Under this policy, \$75,201 and \$90,291 was appropriated for expenditure for years ended March 31, 2017 and 2016, respectively.

The composition of the endowment account as of March 31, 2017 is as follows:

	***		Temporarily	Permanently	m . i
	Un	restricted	Restricted	Restricted	Total
Board designated endowment					
funds	\$	764,392 \$	-	\$ -	\$ 764,392
Donor-restricted endowment funds		(7,692)	416,978	624,714	1,034,000
Total	\$	<i>7</i> 56,700 \$	416,978	\$ 624,714	\$ 1,798,392

Changes in endowment account for the year ended March 31, 2017 are as follows:

			Temporarily	I	Permanently	
	U	nrestricted	Restricted		Restricted	Total
Endowment net assets,

NOTES TO FINANCIAL STATEMENTS

Note 6. Split-Interest Agreements

The Society is the beneficiary of income and remainder trusts. The Society's interest in these split-interest agreements is reported as a contribution in the year in which it is notified of its interest. The present value of the Society's interest in split-interest agreements approximates the fair value of the Society's proportional share of the assets of the trusts. Valuation changes are reported as a change in value of split-interest agreements in the statement of activities.

The Society established a pooled income fund in March 1993. Contributions to the fund are measured at the fair value of the assets to be received, discounted for the estimated time period until the donor's death using discount rates between 4.2% and 9.4%. Until a donor's death, the donor or designated beneficiary is paid the income (as defined under the arrangement) earned on the donor's assigned units. Upon the donor's death, the value of the units reverts to the Society. Amortization of the discount is recognized as a change in value of split-interest agreements in temporarily restricted net assets in the statement of activities.

The Society has entered into charitable gift annuity agreements whereby donors (or designated beneficiaries) receive payments for the remainder of their lives. The liability for these split-interest agreements is determined based on actuarial assumptions using discount rates between 4.0% and 7.4%. The amount of the contribution recorded by the Society is the fair value of assets received less the present value of the estimated annuity payments. Valuation changes in the annuity liability are reflected as changes in temporarily restricted net assets in the statement of activities.

Split-interest agreements consist of the following:

March 31,	2017	2016
Markus Trust (perpetual income trust)	\$ 1,397,627 \$	1,375,163
Chase Trust (perpetual income trust)	87,725	84,572
Pooled income fund	1,025,667	958,409
Charitable annuity fund	166,198	174,455
Total split-interest agreements	\$ 2,677,217 \$	2,592,599

The income received from the Markus and Chase Trusts is restricted for sanctuary preservation and maintenance. Total income received from these split-interest agreements amounted to \$36,421 and \$31,153 for the years ended March 31, 2017 and 2016, respectively.

The Society is the income beneficiary of revocable trust funds maintained by the New Hampshire Charitable Foundation. On March 31, 2017 and 2016, these funds had a market value of \$516,766 and \$494,250, respectively. Income distributions on these trust funds are recorded as contribution revenue when received, and amounted to \$25,210 and \$20,707 for the years ended March 31, 2017 and 2016, respectively.

NOTES TO FINANCIAL STATEMENTS

Note 7. Long-Term Debt

Long-term debt consists of the following:

March 31,		2017	2016
Variable note payable, Yankee Farm Credit, due in monthly			
installments of principal and interest (4.50% at March 31,			
2017) in the amount of \$3,817 through February 2038;			
collateralized by certain real estate of the Society located			
in Concord, Auburn, Antrim and Marlborough, New			
Hampshire.	\$	624,905 \$	642,792
Less current portion		18,880	18,051
Long-term debt, less current portion	\$	606,025 \$	624,741
Aggregate maturities required on long-term debt at March 31, 2017 are	e as follo	DWS:	
2018		\$	18,880
2019			19,748
2020			20,578
2021			21,604
2022			21,523
Thereafter			522,572

The loan agreement contains covenants, the most restrictive of which require the Society to maintain a working capital minimum of 150% of the loan balance and a minimum net worth of \$13 million.

Interest expense amounted to \$28,884 and \$29,779 for the years ended March 31, 2017 and 2016, respectively.

Note 8. Property and Equipment

Total

Property and equipment consisted of the following:

March 31,	2017	2016
Land and improvements	\$ 8,157,935 \$	8,157,935
Building and improvements	5,514,807	5,468,387
Equipment	311,970	311,970
Vehicles	57,116	57,116
	 14,041,827	13,995,408
Less accumulated depreciation	2,576,822	2,428,868
Property and equipment, net	\$ 11,465,005 \$	11,566,540

624,905

NOTES TO FINANCIAL STATEMENTS

Note 9. Temporarily Restricted Net Assets

Temporarily restricted net assets consist of the following:

March 31,	2017	2016
Split-interest agreements	\$ 1,091,022 \$	1,007,503
Support of specific projects	3,050,951	2,990,053
Capital funds	89,750	89,750
Portion of perpetual endowment funds subject to time		
restriction under UPMIFA	416,978	365,235
Massabesic Audubon Center long-lived donated assets	413,494	436,214
Total temporarily restricted net assets	\$ 5,062,195 \$	4,888,755

Split-interest agreements are restricted as to time, and their use is primarily restricted to research, sanctuary maintenance and environmental education.

Note 10. Permanently Restricted Net Assets

Permanently restricted net assets consist of the following:

March 31,	2017	2016
Land held for conservation	\$ 6,469,510 \$	6,469,510
Perpetual trusts	1,485,352	1,459,735
Center support	50,925	50,925
Sanctuary preservation and maintenance	306,205	306,205
Conservation	94,996	86,346
Programs	160,817	160,817
Collection	225,000	225,000
Other	15,000	15,000
Total permanently restricted net assets	\$ 8,807,805 \$	8,773,538

Income earned on perpetual trusts is restricted for sanctuary preservation and maintenance.

Note 11. Fair Value Measurements

The Fair Value Measurements Topic of the FASB Accounting Standards Codification (FASB ASC 820-10) establishes a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1 measurements) and the lowest priority to measurements involving significant unobservable inputs (Level 3 measurements). The three levels of the fair value hierarchy are as follows:

NOTES TO FINANCIAL STATEMENTS

- Level 1 inputs are unadjusted, quoted prices in active markets for identical assets at the
 measurement date. The types of assets carried at level 1 fair value generally are securities listed in
 active markets. The Society has valued their investments, listed on national exchanges at the last
 sales price as of the day of valuation.
- Level 2 inputs are based on quoted prices for similar instruments in active markets, quoted prices
 for identical or similar instruments in markets that are not active, and model-based valuation
 techniques for which all significant assumptions are observable in the market or can be
 corroborated by observable market data for substantially the full term of the assets or liabilities.
- Level 3 inputs are generally unobservable and typically reflect management's estimates of
 assumptions that market participants would use in pricing the asset or liability. The fair values are
 therefore determined using model-based techniques that include option-pricing models, discounted
 cash flow models, and similar techniques.

The inputs or methodology used for valuing investments are not necessarily an indication of the risk associated with investing in those investments. Financial assets carried at fair value on a recurring basis consist of the following:

Fair value at March 31, 2017 was determined as follows:

	Level 1	Level 2	Level 3
Fixed value money funds	\$ 12,863 \$	- \$	
Fixed obligations:			
U.S. Government obligations	146,598	-	_
Common stock:			
ETF - Domestic	486,394	-	-
ETF - Real estate	197,302	-	-
Bond mutual funds:			
Domestic bonds	187,036	-	_
International bonds	296,175	-	-
Emerging markets	82,360		
High yield bonds	318,223	-	-
Mutual funds:			
Emerging markets	237,849	-	-
Natural resources	173,513	-	-
Real estate	276,417	-	-
International	359,646	-	~
Split-interest agreements	-	-	2,677,217
Other investments	1,000	-	-
	\$ 2,775,376 \$	- \$	2,677,217

(continued on next page)

NOTES TO FINANCIAL STATEMENTS

Fair value at March 31, 2016 was determined as follows:

	Le	evel 1	Level	2	Level 3
Fixed value money funds	\$ 1	10,699	\$	- \$	_
Fixed obligations:					
U.S. Government obligations	14	14, 587		-	-
Common stock:					
ETF - Domestic	44	43,017		-	-
ETF - Real Estate	15	59,353		-	-
Bond mutual funds:					
Domestic bonds	18	35,540		-	-
International bonds	36	59,949		-	-
High yield bonds	27	70,337		-	~ <u>-</u>
Mutual funds:					
Emerging markets	20	05,207		-	-
Natural resources	15	58,182		-	-
Real estate	31	15,071		-	-
International	33	38,987		-	-
Split-interest agreements		-		-	2,592,599
Other investments		1,000		-	-
	\$ 2,60	01,929	\$	- \$	2,592,599

All assets and liabilities have been valued using a market or income approach and have been consistently applied. The market approach uses prices and other relevant information generated by market transactions involving identical or comparable assets or liabilities. Prices may be indicated by pricing guides, sale transactions, market trades, or other sources.

The income approach uses valuation techniques to convert future amounts to a single present amount based on current market expectations about the future amounts (includes present value techniques and option-pricing models). Net present value is an income approach where a stream of expected cash flows is discounted at an appropriate market interest rate.

The following table presents the change in Level 3 instruments for the year ended March 31, 2017:

	$\mathbf{s}_{\mathbf{r}}$	olit Interest
	A	greements
Balance, beginning of year	\$	2,592,599
Investment fees		(22,461)
Distributions		(36,421)
Total realized and unrealized gains,		
included in changes in net assets		143,500
Balance, end of year	\$	2,677,217
Amount of unrealized gains attributable to change in unrealized gains relating to assets still held at the reporting date, included in changes in net assets	\$	143,500

(continued on next page)

NOTES TO FINANCIAL STATEMENTS

The following table presents the change in Level 3 instruments for the year ended March 31, 2016:

	\mathbf{S}_{1}	plit Interest
	1	Agreements
Balance, beginning of year	\$	2,035,743
Investment fees		(16,638)
Distributions		(31,153)

included in changes in net assets		604,647
Balance, end of year	\$	2,592,599
	,	
Amount of unrealized gains attributable to change in unrealized gains relating to		
assets still held at the reporting date, included in changes in net assets	\$	604,647

Note 12. Employee Retirement Plan

The Society has a tax deferred Annuity Retirement Plan that allows employees to make voluntary contributions, on a pre-tax basis, through salary reduction. The Society makes a matching contribution for each participating employee up to 6% of the participant's compensation.

The Society's matching contributions for the years ended March 31, 2017 and 2016 were \$36,801 and \$38,243, respectively.

Note 13. Contingent Liabilities

The Society has contracts with various state and Federal agencies to provide conservation and other services. Under the terms of these agreements, the Society is required to provide the contracted services within the contract period for purposes specified in the budget. If program expenditures are determined not to have been made in compliance with the approved budget, the Society may be required to repay such funds.

Note 14. Subsequent Events

The Society has evaluated subsequent events through August 22, 2017, the date which the financial statements were available to be issued, and have not evaluated subsequent events after that date.

No subsequent events were identified that would require disclosure in the financial statements for the year ended March 31, 2017.

NOTES TO FINANCIAL STATEMENTS

Note 15. National Wildlife Federation Affiliation

A formal affiliation between the National Wildlife Federation ("NWF") and the Society was effective November 5, 2011. The benefits to the Society are both programmatic and pragmatic.

Programmatically, NWF's mission focus is wildlife conservation. Its programs are rooted in policy, science, and education. Its scope is national. The Society's mission is protecting New Hampshire's environment for wildlife and for people. The Society's programs focus on policy, conservation science, education, and land protection. The Society's focus is statewide, but many of the issues are national in scope, e.g. bird conservation, climate change.

Working with NWF, the Society has access to talented people whose knowledge complements the Society's staffs'. NWF serves a coordinating role for its New England affiliates and facilitates communication among the Society staff and other NWF affiliates working on the same issues.

From a practical standpoint, NWF is a large organization with more than 7,000 members in New Hampshire to whom the Society has access. A key organization goal for the Society is to build the membership base. Given the similarity in missions and work, NWF members are likely to be interested in the Society, but in all probability have never been asked to join. With grant support from the New Hampshire Charitable Foundation, NWF brought the development director from its New Jersey affiliate to the Society for board/staff training on fundraising. NWF offers affiliate training to help them build capacity and seeks to strengthen the regional environmental community through its affiliates.

Annually, NWF and the Society identify areas on which to work together. Currently, capacity building is the primary focus. The scientific and policy staff are identifying additional areas of mutual interest and collaborating on an issue by issue basis.
